Hi Tom, Dave,

Look what I have in my hot little hands! Looks good, and very nearly there!

Justin (at Wiley) said that the advance copies should be shipped out in the next couple of weeks. SO, if you want to start reaching out to the contributors to find out if they want an e-book or a hard copy and verifying mailing addresses, we can start drawing this process to a close. :)

I got two copies of bound proofs, so when I'm done showing them off at SETAC Europe, I can mail one down to you and one to Dave, if you'd like. (Or you can wait for the actual book – either/or.)

I'll be traveling and out of the office starting tomorrow, but periodically checking e-mails.

All the best,

Jen
